Vessels not inspected and bills of health issued.....	6
Members of crews of outgoing vessels inspected.....	995
Members of crews of outgoing vessels not inspected.....	177
Passengers of outgoing vessels inspected.....	407
Passengers of outgoing vessels not inspected.....	53
Vessels fumigated prior to sailing.....	2

During the week 2 cases of yellow fever were reported, 1 at Santa Clara, January 6, and 1 on the schooner *Mercedita* at Cienfuegos, January 9. The schooner came from Santiago de Cuba and had been at Cienfuegos for 11 days prior to the announcement of the case.

The weather has been cool for the past week and conditions have been favorable for mosquito destruction.

January 16. One new fatal case officially reported at Guanamon, Habana Province.

January 17. One new case of yellow fever at Guanamon, Habana Province.

January 19. Two new cases of yellow fever reported to-day at Palmira, near Cienfuegos.

*Reports from Matanzas—Inspection of vessels—Summary for month of December, 1907.*

Acting Assistant Surgeon Nuñez reports, January 7 and 13:

Week ended January 4. Bills of health granted to 3 vessels leaving for the United States. No quarantinable diseases reported.

Week ended January 11. Bills of health were granted to 4 vessels clearing for ports in the United States. No quarantinable diseases were reported.

Month of December, 1908. Bills of health issued to 12 vessels leaving for United States ports, having a total number of 322 members of crew and 58 passengers in transit for the United States and Cuban ports. Five vessels clearing for southern ports were fumigated.

Since December 2, when 1 death from yellow fever was reported at the Covadonga Hospital, in Habana, traceable to Union de Reyes, no new developments of that disease have been reported in Matanzas city or province.

*Report from Santiago—Inspection of vessels.*

Acting Assistant Surgeon Wilson reports, January 7:

Week ended January 4. Bills of health issued to 5 vessels bound for the United States. No vessel fumigated. No quarantinable disease reported.

HAWAII.

*Reports from Honolulu—Outgoing quarantine transactions.*

Chief Quarantine Officer Ramus reports, December 29:

Week ended December 28.
